

## Product information

### Convia LED

#### Application area

Energy-efficient outdoor lighting  
of streets and paths.

#### Technical features

- Luminaire made of cast aluminium with pole bracket (Ø 76 mm)
- Luminaire cover made of flat tempered safety glass
- Colours:
  - Anthracite, similar DB703 (colour coding 26)
  - White aluminium, similar to RAL 9006 (colour coding 03)
- Luminaires luminous flux 2,400 lm
- Connected load: 32 W
- Wattage-reduction switchable to 16 W
- Light colour: 4,000 K, intermediate white (nw)
- LED service life: 50,000h
- Switching type: ET (electr. transformer – switchable), ETDD (electr. transformer DALI – dimmable)
- Safety class: II
- IP 66 protection rating

#### Special product features

- **Design:**  
Discreet but nonetheless open design
- **Long service life:**  
Outstanding manufacturing quality and technology combined with die-cast aluminium ensure lasting value
- **Safety:**  
Outstanding illumination of the entire street area for variable arrangements  
Reduces the risk of accidents
- **Energy efficiency:**  
Saving-potential due to wattage reduction of every luminaire (twilight switching)
- **Simple and quick:**  
Luminaire fixing with only one screw position
